Open Source License Types (Reference)

There are some regularly used open source license types - to reduce the sheer size of this document, we will provide a reference to them here. Each particular component will link directly to the actual license or notice file.

Apache v2.0 License

The Apache v2.0 License has the following terms:

```
                          Apache License
                    Version 2.0, January 2004
                 http://www.apache.org/licenses/

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

  "License" shall mean the terms and conditions for use, reproduction,
  and distribution as defined by Sections 1 through 9 of this document.

  "Licensor" shall mean the copyright owner or entity authorized by
  the copyright owner that is granting the License.

  "Legal Entity" shall mean the union of the acting entity and all
  other entities that control, are controlled by, or are under common
  control with that entity. For the purposes of this definition,
  "control" means (i) the power, direct or indirect, to cause the
  direction or management of such entity, whether by contract or
  otherwise, or (ii) ownership of fifty percent (50%) or more of the
  outstanding shares, or (iii) beneficial ownership of such entity.

  "You" (or "Your") shall mean an individual or Legal Entity
  exercising permissions granted by this License.

  "Source" form shall mean the preferred form for making modifications,
  including but not limited to software source code, documentation
  source, and configuration files.

  "Object" form shall mean any form resulting from mechanical
  transformation or translation of a Source form, including but
  not limited to compiled object code, generated documentation,
  and conversions to other media types.

  "Work" shall mean the work of authorship, whether in Source or
  Object form, made available under the License, as indicated by a
  copyright notice that is included in or attached to the work
  (an example is provided in the Appendix below).
```

"Derivative Works" shall mean any work, whether in Source or Object
form, that is based on (or derived from) the Work and for which the
editorial revisions, annotations, elaborations, or other modifications
represent, as a whole, an original work of authorship. For the purposes
of this License, Derivative Works shall not include works that remain
separable from, or merely link (or bind by name) to the interfaces of,
the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including
the original version of the Work and any modifications or additions
to that Work or Derivative Works thereof, that is intentionally
submitted to Licensor for inclusion in the Work by the copyright owner
or by an individual or Legal Entity authorized to submit on behalf of
the copyright owner. For the purposes of this definition, "submitted"
means any form of electronic, verbal, or written communication sent
to the Licensor or its representatives, including but not limited to
communication on electronic mailing lists, source code control systems,
and issue tracking systems that are managed by, or on behalf of, the
Licensor for the purpose of discussing and improving the Work, but
excluding communication that is conspicuously marked or otherwise
designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity
on behalf of whom a Contribution has been received by Licensor and
subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of
   this License, each Contributor hereby grants to You a perpetual,
   worldwide, non-exclusive, no-charge, royalty-free, irrevocable
   copyright license to reproduce, prepare Derivative Works of,
   publicly display, publicly perform, sublicense, and distribute the
   Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of
   this License, each Contributor hereby grants to You a perpetual,
   worldwide, non-exclusive, no-charge, royalty-free, irrevocable
   (except as stated in this section) patent license to make, have made,
   use, offer to sell, sell, import, and otherwise transfer the Work,
   where such license applies only to those patent claims licensable
   by such Contributor that are necessarily infringed by their
   Contribution(s) alone or by combination of their Contribution(s)
   with the Work to which such Contribution(s) was submitted. If You
   institute patent litigation against any entity (including a
   cross-claim or counterclaim in a lawsuit) alleging that the Work
   or a Contribution incorporated within the Work constitutes direct
   or contributory patent infringement, then any patent licenses
   granted to You under this License for that Work shall terminate
   as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the
   Work or Derivative Works thereof in any medium, with or without
   modifications, and in Source or Object form, provided that You
   meet the following conditions:

   (a) You must give any other recipients of the Work or
       Derivative Works a copy of this License; and

   (b) You must cause any modified files to carry prominent notices
       stating that You changed the files; and

   (c) You must retain, in the Source form of any Derivative Works

that You distribute, all copyright, patent, trademark, and
attribution notices from the Source form of the Work,
excluding those notices that do not pertain to any part of
the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its
distribution, then any Derivative Works that You distribute must
include a readable copy of the attribution notices contained
within such NOTICE file, excluding those notices that do not
pertain to any part of the Derivative Works, in at least one
of the following places: within a NOTICE text file distributed
as part of the Derivative Works; within the Source form or
documentation, if provided along with the Derivative Works; or,
within a display generated by the Derivative Works, if and
wherever such third-party notices normally appear. The contents
of the NOTICE file are for informational purposes only and
do not modify the License. You may add Your own attribution
notices within Derivative Works that You distribute, alongside
or as an addendum to the NOTICE text from the Work, provided
that such additional attribution notices cannot be construed
as modifying the License.

You may add Your own copyright statement to Your modifications and
may provide additional or different license terms and conditions
for use, reproduction, or distribution of Your modifications, or
for any such Derivative Works as a whole, provided Your use,
reproduction, and distribution of the Work otherwise complies with
the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise,
any Contribution intentionally submitted for inclusion in the Work
by You to the Licensor shall be under the terms and conditions of
this License, without any additional terms or conditions.
Notwithstanding the above, nothing herein shall supersede or modify
the terms of any separate license agreement you may have executed
with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade
names, trademarks, service marks, or product names of the Licensor,
except as required for reasonable and customary use in describing the
origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or
agreed to in writing, Licensor provides the Work (and each
Contributor provides its Contributions) on an "AS IS" BASIS,
WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or
implied, including, without limitation, any warranties or conditions
of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any
risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory,
whether in tort (including negligence), contract, or otherwise,
unless required by applicable law (such as deliberate and grossly
negligent acts) or agreed to in writing, shall any Contributor be
liable to You for damages, including any direct, indirect, special,
incidental, or consequential damages of any character arising as a
result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill,
work stoppage, computer failure or malfunction, or any and all

```
    other commercial damages or losses), even if such Contributor
    has been advised of the possibility of such damages.

  9. Accepting Warranty or Additional Liability. While redistributing
    the Work or Derivative Works thereof, You may choose to offer,
    and charge a fee for, acceptance of support, warranty, indemnity,
    or other liability obligations and/or rights consistent with this
    License. However, in accepting such obligations, You may act only
    on Your own behalf and on Your sole responsibility, not on behalf
    of any other Contributor, and only if You agree to indemnify,
    defend, and hold each Contributor harmless for any liability
    incurred by, or claims asserted against, such Contributor by reason
    of your accepting any such warranty or additional liability.

  END OF TERMS AND CONDITIONS
```

BSD-3-Clause

The [BSD 3-Clause License](#) has also been called the "New BSD License", "Revised BSD License", or "Modified BSD License." It has the following terms:

```
Copyright <YEAR> <COPYRIGHT HOLDER>

Redistribution and use in source and binary forms, with or without
modification, are permitted provided that the following conditions are
met:

1. Redistributions of source code must retain the above copyright notice,
   this list of conditions and the following disclaimer.

2. Redistributions in binary form must reproduce the above copyright
notice,
   this list of conditions and the following disclaimer in the
documentation
   and/or other materials provided with the distribution.

THIS SOFTWARE IS PROVIDED BY THE COPYRIGHT HOLDERS AND CONTRIBUTORS "AS
IS"
AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE
IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR
PURPOSE
ARE DISCLAIMED. IN NO EVENT SHALL THE COPYRIGHT HOLDER OR CONTRIBUTORS BE
LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR
CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF
SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS
INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN
CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE)
ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF
THE
POSSIBILITY OF SUCH DAMAGE.
```

MIT License

The [MIT License](#) has the following terms:

BSD-2-Clause License

The [BSD 2-Clause License](#) has also been called the "Simplified BSD License" and the "FreeBSD License." It has the following terms:

GNU Lesser General Public License (LGPL) v3.0

The GNU Lesser General Public License has the following terms:

GNU LESSER GENERAL PUBLIC LICENSE

Version 3, 29 June 2007

Copyright © 2007 Free Software Foundation, Inc. <https://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates the terms and conditions of version 3 of the GNU General Public License, supplemented by the additional permissions listed below.

0. **Additional Definitions.**

As used herein, "this License" refers to version 3 of the GNU Lesser General Public License, and the "GNU GPL" refers to version 3 of the GNU General Public License.

"The Library" refers to a covered work governed by this License, other than an Application or a Combined Work as defined below.

An "Application" is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".

The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. **Exception to Section 3 of the GNU GPL.**

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. **Conveying Modified Versions.**

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the

facility is invoked), then you may convey a copy of the modified version:

- a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. **Object Code Incorporating Material from Library Header Files.**

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.
- b) Accompany the object code with a copy of the GNU GPL and this license document.

4. **Combined Works.**

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

- a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.

- b) Accompany the Combined Work with a copy of the GNU GPL and this license document.

- c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.

- d) Do one of the following:
    - 0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.
    - 1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.

- e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and

```
       Corresponding Application Code. If you use option 4d1, you must
       provide the Installation Information in the manner specified by
       section 6 of the GNU GPL for conveying Corresponding Source.)
```

5. **Combined Libraries.**

```
You may place library facilities that are a work based on the Library
side by side in a single library together with other library facilities
that are not Applications and are not covered by this License, and convey
such a combined library under terms of your choice, if you do both of the
following:
```

- a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. **Revised Versions of the GNU Lesser General Public License.**

```
The Free Software Foundation may publish revised and/or new versions of
the GNU Lesser General Public License from time to time. Such new
versions will be similar in spirit to the present version, but may differ
in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as
you received it specifies that a certain numbered version of the GNU
Lesser General Public License "or any later version" applies to it, you
have the option of following the terms and conditions either of that
published version or of any later version published by the Free Software
Foundation. If the Library as you received it does not specify a version
number of the GNU Lesser General Public License, you may choose any
version of the GNU Lesser General Public License ever published by the
Free Software Foundation.

If the Library as you received it specifies that a proxy can decide
whether future versions of the GNU Lesser General Public License shall
apply, that proxy's public statement of acceptance of any version is
permanent authorization for you to choose that version for the Library.
```

Microsoft Public License

The [Microsoft Public License](#) has the following terms:

```
This license governs use of the accompanying software. If you use the
software, you accept this license. If you do not accept the license, do
not use the software.

1. Definitions

The terms "reproduce," "reproduction," "derivative works," and
"distribution" have the same meaning here as under U.S. copyright law.

A "contribution" is the original software, or any additions or changes to
the software.
```

```
A "contributor" is any person that distributes its contribution under
this license.

"Licensed patents" are a contributor's patent claims that read directly
on its contribution.

2. Grant of Rights

(A) Copyright Grant- Subject to the terms of this license, including the
license conditions and limitations in section 3, each contributor grants
you a non-exclusive, worldwide, royalty-free copyright license to
reproduce its contribution, prepare derivative works of its contribution,
and distribute its contribution or any derivative works that you create.

(B) Patent Grant- Subject to the terms of this license, including the
license conditions and limitations in section 3, each contributor grants
you a non-exclusive, worldwide, royalty-free license under its licensed
patents to make, have made, use, sell, offer for sale, import, and/or
otherwise dispose of its contribution in the software or derivative works
of the contribution in the software.

3. Conditions and Limitations

(A) No Trademark License- This license does not grant you rights to use
any contributors' name, logo, or trademarks.

(B) If you bring a patent claim against any contributor over patents that
you claim are infringed by the software, your patent license from such
contributor to the software ends automatically.

(C) If you distribute any portion of the software, you must retain all
copyright, patent, trademark, and attribution notices that are present in
the software.

(D) If you distribute any portion of the software in source code form,
you may do so only under this license by including a complete copy of
this license with your distribution. If you distribute any portion of the
software in compiled or object code form, you may only do so under a
license that complies with this license.

(E) The software is licensed "as-is." You bear the risk of using it. The
contributors give no express warranties, guarantees or conditions. You
may have additional consumer rights under your local laws which this
license cannot change. To the extent permitted under your local laws, the
contributors exclude the implied warranties of merchantability, fitness
for a particular purpose and non-infringement.
```

Microsoft Software License

The Microsoft Software License has the following terms:

```
License Information

The .NET project uses source and binaries from multiple sources that may
be important to your use of .NET.
```

This document is provided for informative purposes only and is not itself a license.

Source code

.NET source uses the MIT license.

Each repo has:

- A license, for example, dotnet/runtime LICENSE.TXT.
- Third party notice file, for example, dotnet/runtime THIRD-PARTY-NOTICES.TXT

More information:

- Project copyright guidance

Product distributions

Product distributions use the following license:

- On Linux and macOS: MIT license
- On Windows: .NET Library License

Product distributions include downloadable assets and runtime packs.

More information:

- Windows license information.
- .NET Asset Licensing Model

Package distributions

Library packages use the MIT license, for example System.Text.Json.

Redistribution

Binaries produced by .NET SDK compilers (C#, F#, VB) can be redistributed without additional restrictions. The only restrictions are based on the license of the compiler inputs used to produce the binary.

Applications are subject to the same terms as are covered by "Product distributions" and "Package distributions", above.

Parts of the .NET runtime are embedded in applications, including platform-specific executable hosts, and self-contained deployments.

7-Zip Copyright (C) 1999-2025 Igor Pavlov.

  The licenses for files are:

    - 7z.dll:
        - The "GNU LGPL" as main license for most of the code
        - The "GNU LGPL" with "unRAR license restriction" for some code
        - The "BSD 3-clause License" for some code
        - The "BSD 2-clause License" for some code
    - All other files: the "GNU LGPL".

  Redistributions in binary form must reproduce related license
information from this file.

  Note:
    You can use 7-Zip on any computer, including a computer in a
commercial
    organization. You don't need to register or pay for 7-Zip.

  GNU LGPL information
  --------------------
```

BSD 3-clause License in 7-Zip code

  The "BSD 3-clause License" is used for the following code in 7z.dll
    1) LZFSE data decompression.
       That code was derived from the code in the "LZFSE compression
library" developed by Apple Inc,
       that also uses the "BSD 3-clause License".
    2) ZSTD data decompression.
       that code was developed using original zstd decoder code as
reference code.
       The original zstd decoder code was developed by Facebook Inc,
       that also uses the "BSD 3-clause License".

  Copyright (c) 2015-2016, Apple Inc. All rights reserved.
  Copyright (c) Facebook, Inc. All rights reserved.
  Copyright (c) 2023-2025 Igor Pavlov.

Text of the "BSD 3-clause License"

BSD 2-clause License in 7-Zip code

   The "BSD 2-clause License" is used for the XXH64 code in 7-Zip.

   XXH64 code in 7-Zip was derived from the original XXH64 code developed
by Yann Collet.

   Copyright (c) 2012-2021 Yann Collet.
   Copyright (c) 2023-2025 Igor Pavlov.

Text of the "BSD 2-clause License"

```
(INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF
THIS
SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

---

unRAR license restriction
------------------------

The decompression engine for RAR archives was developed using source
code of unRAR program.
All copyrights to original unRAR code are owned by Alexander Roshal.

The license for original unRAR code has the following restriction:

  The unRAR sources cannot be used to re-create the RAR compression
algorithm,
  which is proprietary. Distribution of modified unRAR sources in
separate form
  or as a part of other software is permitted, provided that it is
clearly
  stated in the documentation and source comments that the code may
  not be used to develop a RAR (WinRAR) compatible archiver.

Shim Generator (shimgen)@1.0.0

[Shim Generator (shimgen)](#) - [License terms.](#)

```
Shim Generator - shimgen.exe
Copyright (C) 2017 - Present Chocolatey Software, Inc ("CHOCOLATEY")
Copyright (C) 2013 - 2017 RealDimensions Software, LLC ("RDS")
======================================================================
Grant of License
======================================================================
ATTENTION: Shim Generator ("shimgen.exe") is a closed source application
with
a proprietary license and its use is strictly limited to the terms of
this
license agreement.

RealDimensions Software, LLC ("RDS") grants Chocolatey Software, Inc a
revocable,
non-exclusive license to distribute and use shimgen.exe with the official
Chocolatey client (https://chocolatey.org). This license file must be
stored in
Chocolatey source next to shimgen.exe and distributed with every copy of
shimgen.exe. The distribution or use of shimgen.exe outside of these
terms
without the express written permission of RDS is strictly prohibited.

While the source for shimgen.exe is closed source, the shims have
reference
source at https://github.com/chocolatey/shimgen/tree/master/shim.

End-User License Agreement
====================================================================
EULA - Shim Generator

IMPORTANT- READ CAREFULLY: This RealDimensions Software, LLC ("RDS") End-
User License
Agreement ("EULA") is a legal agreement between you ("END USER") and RDS
for all
RDS products, controls, source code, demos, intermediate files, media,
printed
materials, and "online" or electronic documentation (collectively
"SOFTWARE
PRODUCT(S)") contained with this distribution.

RDS grants to you as an individual or entity, a personal, non-exclusive
license
to install and use the SOFTWARE PRODUCT(S) for the sole purpose of use
with the
official Chocolatey client. By installing, copying, or otherwise using
the
SOFTWARE PRODUCT(S), END USER agrees to be bound by the terms of this
EULA. If
END USER does not agree to any part of the terms of this EULA, DO NOT
INSTALL,
USE, OR EVALUATE, ANY PART, FILE OR PORTION OF THE SOFTWARE PRODUCT(S).

In no event shall RDS be liable to END USER for damages, including any
direct,
indirect, special, incidental, or consequential damages of any character
arising
as a result of the use or inability to use the SOFTWARE PRODUCT(S)
(including
but not limited to damages for loss of goodwill, work stoppage, computer
failure
or malfunction, or any and all other commercial damages or losses).

The liability of RDS to END USER for any reason and upon any cause of
action
related to the performance of the work under this agreement whether in
tort or
in contract or otherwise shall be limited to the amount paid by the END
USER to
RDS pursuant to this agreement or as determined by written agreement
signed
by both RDS and END USER.

ALL SOFTWARE PRODUCT(S) are licensed not sold. If you are an individual,
you
must acquire an individual license for the SOFTWARE PRODUCT(S) from RDS
or its
authorized resellers. If you are an entity, you must acquire an
individual license
for each machine running the SOFTWARE PRODUCT(S) within your organization
from RDS
or its authorized resellers. Both virtual and physical machines running
the SOFTWARE
PRODUCT(S) must be counted in the SOFTWARE PRODUCT(S) licenses quantity
of the
organization.
```

```
==================================================================
Commercial / Personal Licensing
==================================================================
Shim Generator ("shimgen.exe") is also offered under personal and
commercial
licenses. You can learn more by contacting Chocolatey at https://
chocolatey.org/contact.
